

Dear Little School Parents,

It is time to renew the permission for sunscreen application. As we did last year, we have chosen Blue Lizard sunscreen to be used on the children. Blue Lizard sunscreen has been recommended by several dermatologists and parents as a safe and effective product for our children.

Sunscreen application generally runs April 1 - October 1. We will apply as a precaution on unusually hot and/or sunny days throughout the year or at parent's request. We ask that parents continue to apply sunscreen on their children each morning before coming to school. We will apply sunscreen one time per day, at approximately lunchtime, and additional sunscreen if the children are doing water play. Teachers will use a quarter-sized dollop per child and will cover all exposed areas. Teachers must wash hands between applications and apply the sunscreen 30 minutes before going outside.

Each parent must complete this Permission to Apply Sunscreen form and return it to the classroom teacher. This permission is good for one year. While The Little School is taking on this responsibility, we can accept no responsibility for, or be held liable for, any unforeseen consequences after application of the sunscreen.

Permission to Apply Sunscreen
